

Robert search terms

1. He uses Google but not University Google -- because of University Google, he has to log into his account every time. Also the time-out problem.
2. Check emails through Canvas everyday.
3. OASIS, difficult because of the password and login and time out problem. If he could find OASIS information without actually having to log into, that would be great.
4. Usf.edu Academics Courses and Calendar
5. If you are a new or potential student, you dont know the course prefix.
6. Class schedule search
7. <http://www.registrar.usf.edu/ssearch/search.php>
8. Course prefixes are the problem and if a new student could simply type in the word Anthropology, that would help new students AND those with disabilities
9. Surf for a science course or potential science major, hit the prefix the prefix for science, what he needs to know BSC what part of science is that asks Robert?
10. The prefixes are very confusing, once you have the course, what do you do about it?
11. Review course schedule. Relationship to email, the classes and everything before you do anything on the system, you have to go to myUSF to make it official
12. In myUSF Robert accesses: Learning & Teaching Tools
Canvas, Degree Works, Advisor Appointments, Application Gateway, Software Tutorials, Library Services, USFSP Library, Attendance Codes
13. Courses and Calendar <http://www.usf.edu/academics/courses-calendar.aspx> Normally you have to go to myUSF, then click twice,
14. <http://www.registrar.usf.edu/ssearch/search.php>
15. Disabilty service www.usfsp.edu A to Z menu
16. Secretary has to email accomodations, once the student gets the paperwork, he must then mail to the professor. Sometimes it gets hairy, according to Robert. Email communications problems, perhaps notifiications can help,
17. Search results in OASIS not relevant
